# LineaVolo

**Designed by  
Giuseppe Maurizio Scutellà**

# LineaVolo family\_

LINEAVOLO blends the line between architectural and decorative by offering the best of both worlds in a minimalist and elegant fixture that imprints a very specific and memorable design.

The superior craftsmanship delivered by the masterful Giuseppe Maurizio Scutellà, whose background in industrial mechanics and collaborations with sculptural artists lends well to this distinguished product, has been a welcome and exciting alliance for formalighting.

Presented in various versions, from floor to pendant to table lamp and covering all requirements and applications in refined and prestigious environments, LINEAVOLO is offered in a select series of precious finishes (in gold, silver, graphite and white) and stands out from other illuminotecnica design projects.

**“LINEAVOLO is a project whose central theme is light. It’s not merely a technical product that performs its lighting functions, but a precious casket in the form of a gold bar that contains light within it, which is one of our most important resources. Light accompanies us throughout our lives, in a vital and essential way”.**

**Giuseppe Maurizio Scutellà**

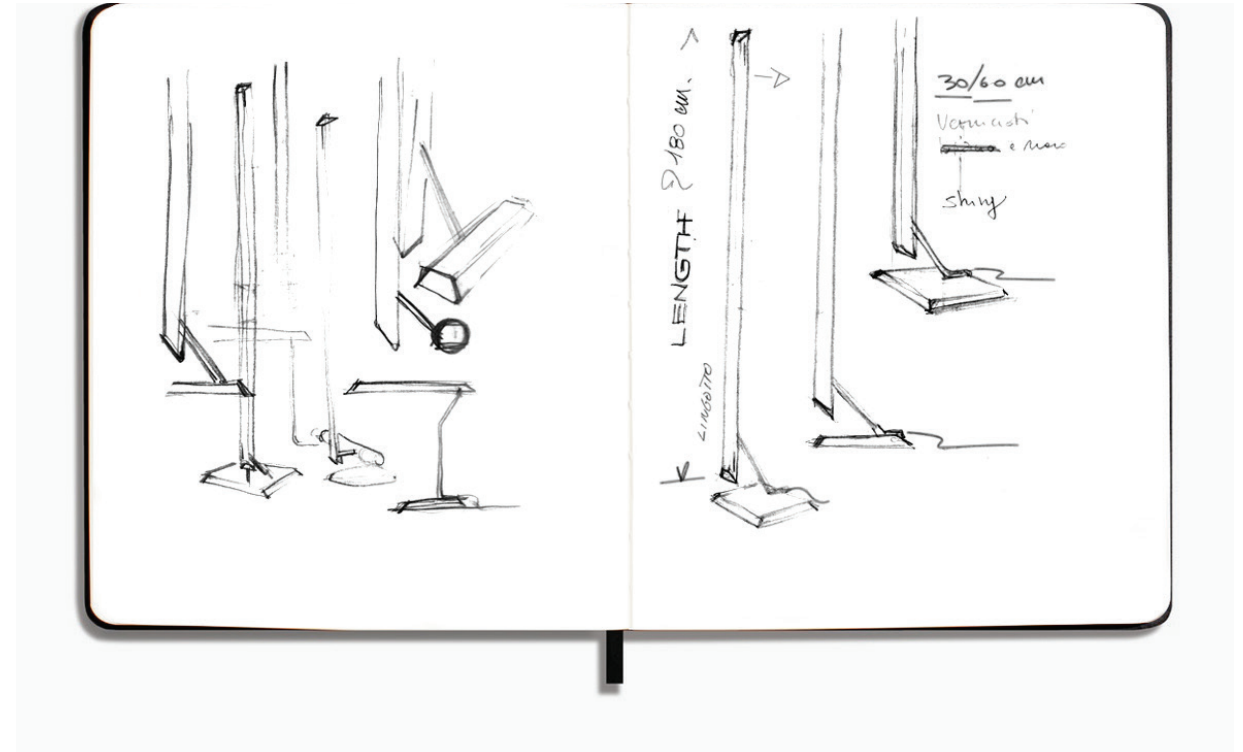

## About

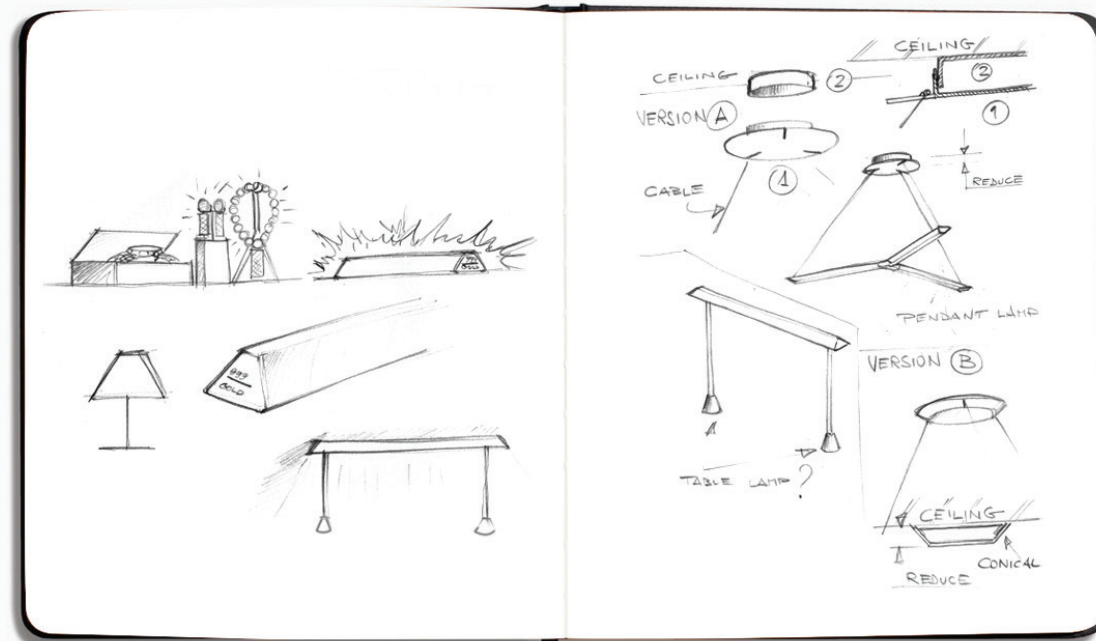

A graduate in industrial mechanics, Scutellà worked as a senior project designer, developing injection moulds and plastic objects for companies such as Kawasaki, Ducati, Prisma, and Mercedes. Later working with steel design and plastic high-tech.

Winner of the prestigious Red Dot Award in 2009 and the IF Design Award in 2010 for the 'Pirce' light designed in collaboration with Artemide S.p.A.

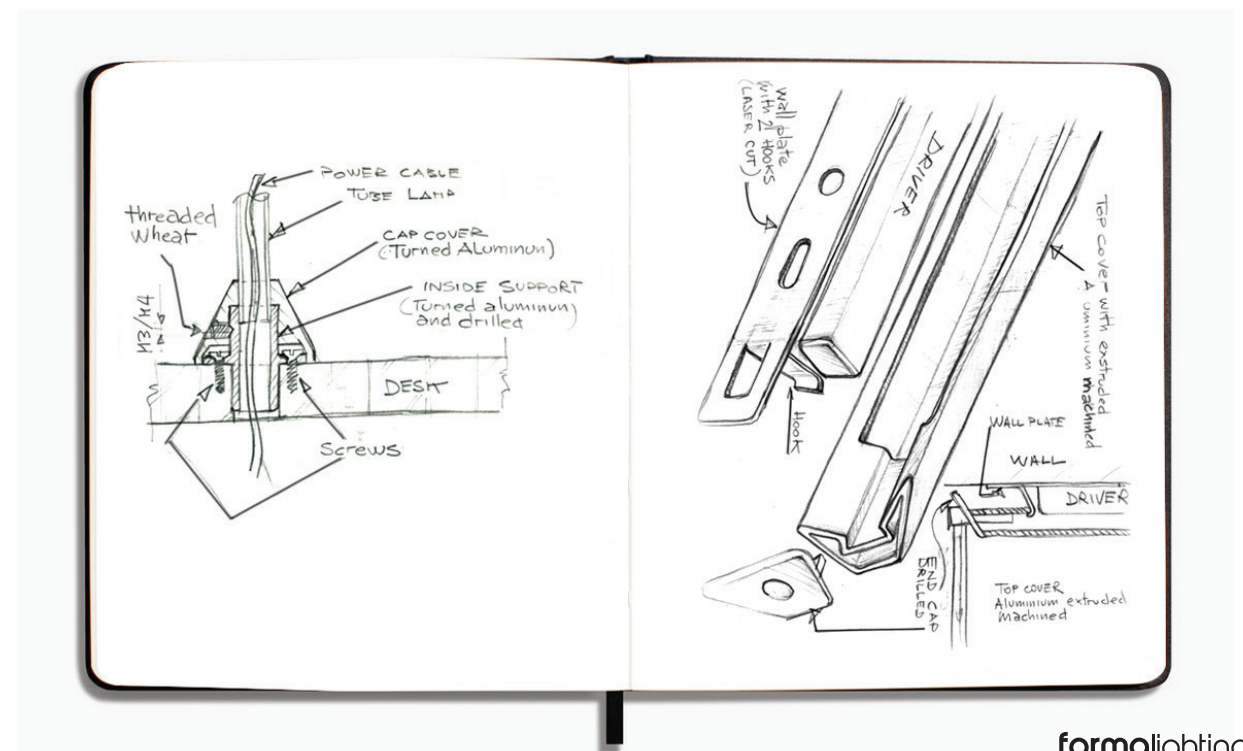

Other lighting collaborations include Light Contract (Flos S.p.A department), Habitat and Marks & Spencer.
